MEMORANDUM FOR: Deputy Director for Intelligence  
FROM: Director of Central Intelligence  
SUBJECT: Airlie House Conference on Soviet  
Deception of US Intelligence

1. On the attached, it seems to me that suggestion number 2 would be something to be looked at by your Foreign Intelligence Capabilities Group; the same for suggestion number 3. On a sampling basis, we should talk to the intelligence advisers and selected negotiators at SALT, MBFR, START, and INF negotiating sessions. I wouldn't think this would represent too many people. I don't know what the voluminous data base which he refers to might be. Suggestion number 4 could be addressed in the conference being planned on semantics and other aspects of this information.
2. You might consider whether a response should be prepared to the attached memorandum from Foster and Weiss.

William J. Casey
